Main Illegal Activities experienced during the Month

Chyulu/Duma Team

De-Snaring Report for April, 2013

Monthly Summary

DUMA, MAMBA DESNARING SUMMARY APRIL

During the month of April, the two desnaring teams operated in the following areas:

- Kibwezi FR
- Fence line
- Kenze
- Kaunguni
- Metava
- Utu

All areas received rain this month. Utu area in particular has received a lot of rainfall and the elephant grass is growing over 3 meters tall. The animals and plants are happy and many birds have been sighted including a rare Narina Trogon.

Over the month no poaching activities were discovered or reported. This is believed to be from low game densities and inactivity due to rainfall. The operation in Utu found that there was a lot of destructive of vegetation – for charcoal and timber. During the course of April we destroyed seven charcoal kilns and arrested seven people at Utu area. We intend to keep pressure in this area more often.

Reported by Adero.
